## Academic Head and Neck Surgical Oncology and Reconstructive Surgeon University of British Columbia, Providence Health Care and Vancouver General Hospital Vancouver, British Columbia

The University of British Columbia and the Division of Otolaryngology-Head and Neck Surgery in Vancouver invite applications for an academic Head and Neck Surgical Oncology and Reconstructive Surgeon, with a Clinical Faculty appointment in the UBC Department of Surgery.

The individual we seek will provide tertiary and quaternary level Head and Neck Surgical Oncology and Reconstructive Surgical care (0.6 FTE), with a commitment to, track record of and expertise in Head and Neck Oncology Research (0.4 FTE). Clinically, the applicant must demonstrate comfort with managing complex clinical and surgical head and neck oncology patients including mucosal, salivary gland and endocrine surgery as well as expertise in transoral robotic surgery (TORS) and microvascular reconstruction.

The Division of Otolaryngology-Head and Neck Surgery, University of British Columbia is involved in undergraduate and post-graduate programs and the applicant is expected to play an integral role in both didactic and clinical/surgical teaching, and further the research mandate of the Division.

On-call services will cover the Vancouver General Hospital and Providence Health Care facilities (Mount St. Joseph's and St. Paul's Hospitals) as well as being available for tertiary/quaternary referral services for the province. Payment is a fee-for-service model through the Medical Services Plan of B.C. The first two years of the 0.4 FTE academic component will have guaranteed funding after which the candidate is expected to source funding for the academic component of the FTE.

The successful candidate is expected to demonstrate:

- Expertise in management of complex Head and Neck Surgical Oncology and Reconstruction with at least a one-year accredited fellowship through either a Canadian or an American Head and Neck Surgical Oncology Fellowship program. Expertise with TORS, Microvascular Reconstruction or Facial Reanimation is encouraged.
- At least a Masters' level degree in a discipline related to Head and Neck Research such as machine learning/artificial intelligence, translational medicine or clinical epidemiology
- Show evidence of exceptional interpersonal and collaborative skills

- Further advance the clinical and academic productivity, and strategic goals of the UBC Division of Otolaryngology - Head and Neck Surgery;
- Further the mandate of the Division for exceptional educational experiences for trainees, including UBC medical students, OHNS residents and fellows and other trainees.
- Applicants must have certification in Otolaryngology Head and Neck Surgery from the Royal College of Physicians and Surgeons of Canada (or equivalent) and be licensed or eligible for a license to practice in the Province of British Columbia.
- The successful applicant shall be appointed to the Department of Surgery at the University of British Columbia as a Clinical Faculty member at a level commensurate with their experience.

Equity and diversity are essential to academic excellence. An open and diverse community fosters the inclusion of voices that have been underrepresented. We encourage applications from members of groups that have been marginalized on any grounds enumerated under the B.C. Human Rights Code, including sex, sexual orientation, gender identity or expression, racialization, disability, political belief, religion, marital or family status, age, and/or status as a First Nation, Metis, Inuit, or Indigenous person. All qualified candidates are encouraged to apply; however, Canadians and permanent residents of Canada will be given priority.

Applications must include current curriculum vitae, a letter of intent including a description of previous academic experience and a description of training relevant to the position, their research accomplishments and their vision for their future research program as well as three reference letters. This application will remain open until February 28, 2025.

Submissions may be made electronically to:
