

# Department of Otolaryngology-Head and Neck Surgery of the University of Ottawa / The Ottawa Hospital

## **Ablative and Reconstructive Head and Neck Oncologic Surgeon, Department of Otolaryngology Head & Neck Surgery**

The Department of Otolaryngology of the University of Ottawa / The Ottawa Hospital Faculty of Medicine invites applications for the above noted position. The Department of Otolaryngology - Head & Neck Surgery comprises a dynamic group of surgeons who provide outstanding patient care throughout Ottawa and the Ontario East / Champlain Region. The Department of Otolaryngology - Head and Neck Surgery provides world class clinical care while conducting research and innovation that will guide the patient care of tomorrow.

### **If you are interested in becoming a member of one of the largest Otolaryngology - Head and Neck Surgery Departments in Canada with:**

- National leaders in clinical care, education and research programs that excel in basic science, clinical science and education;
- Full subspecialty representation;
- High quality undergraduate, postgraduate and fellowship training programs;
- Multidisciplinary collaborations: Thoracic Surgery, Neurosurgery, Plastic Surgery, Oral/Maxillofacial Surgery, Neurology, Ophthalmology, Endocrinology, Nuclear Medicine, Radiation and Medical Oncology;
- High quality professionals in audiology and speech-language pathology;
- Collegial and supportive medical school and hospital administration; and

### **You meet the following qualifications:**

- An academically committed, subspecialty trained ablative and reconstructive (including microvascular techniques) surgeon dedicated to the effective delivery of clinical services, academic performance and research in alignment with the mission, vision, values, policies and objectives of the Department of Otolaryngology - Head and Neck Surgery;
- An outstanding record in patient care, teaching, and research / innovation;
- An outstanding clinician who is certified by the Royal College of Physicians and Surgeons of Canada (FRCPC), or equivalent and who has completed advanced training in ablative and reconstructive surgery, including microvascular reconstruction;
- Eligible for licensure in Ontario; and
- An ability to communicate in a bilingual environment (French and English) is preferred.

The successful candidate will join a group of three head and neck oncologic surgeons to work in a high-volume tertiary center, with well-established multidisciplinary care in head and neck, endocrine and skin cancers, as well as a robotic head and neck oncology program.

You are invited to forward a letter of interest, CV and names of three references by January 31, 2025. In your letter of interest, please clearly outline any meritorious training or accomplishments, in addition to your Ablative and Reconstructive Surgery fellowship training, as well as your long-term personal goals of academic practice.
