

ENT / Head & Neck Surgeon (Part-Time) – Facial Skin Cancer Surgery

SimcoDerm Medical & Surgical Dermatology Centre – Barrie, Ontario

SimcoDerm is a high-volume skin cancer centre serving the Barrie and Simcoe–Muskoka region, offering an excellent opportunity for an **Otolaryngologist–Head & Neck Surgeon (FRCSC)** with a strong interest in **facial skin cancer surgery, reconstruction, and cutaneous oncology**.

This role is ideal for surgeons—especially **new graduates or early-career head & neck specialists**—who want to build a focused surgical practice without the administrative or hospital burdens typically associated with starting out.

What We Offer:

- **High Facial Skin Cancer Volume**

Consistent flow of biopsy-proven NMSC and melanoma cases requiring facial reconstruction, including T-zone excisions, advancement/rotation flaps, full-thickness grafts, and layered closures.

- **Fully Equipped Surgical Suite**

Dedicated procedure rooms, specialized dermatology nursing support, and efficient OR turnover—everything required for complex cutaneous reconstruction.

- **Flexible Scheduling**

Full-day surgical blocks available weekly or monthly. Perfect for surgeons balancing hospital practice, fellowship transition, or early private practice setup.

- **Supportive Multidisciplinary Environment**

Collaborate closely with dermatologists, derm-pathology partners, and a skilled clinical team with streamlined postoperative pathways.

- **Low Administrative Burden**

We handle clinical setup, supplies, patient flow, and coordination—allowing you to focus purely on surgical care. You bill OHIP directly.

Who This Is Ideal For:

- New ENT/Head & Neck graduates wanting to build early surgical volume
 - Surgeons seeking dedicated facial reconstructive work in a community setting
 - Those interested in expanding their cutaneous oncology expertise in a modern, efficient clinic environment
 - Surgeons looking for flexible, part-time work without call or hospital expectations
-
